Milwaukee Guided Math (Gr. 1-5) <i>Kristin Hilty</i>	11/30-12/1/2017

Event Overviews

Dr. Jean’s Active Learning Adventure: Let’s Make It Purposeful, Planful, and Playful!

A One-Day Seminar for Teachers of Grades PreK–K
Dr. Jean Feldman

Dr. Jean will masterfully show you how to make the connections between what you know is right for your students and what the standards require. You’ll explore creative, active, challenging, and hands-on learning experiences for literacy, math, and science, gain simple management strategies to maintain a smoother-running classroom, and re-energize your instruction through out-of-the-box approaches to reaching curriculum goals.

Engage, Empower & Achieve! Strategies for Managing a Classroom Where Students Love to Learn

A One-Day Seminar for Teachers of Grades K–3
Donna Whyte

Empower students to work together, think for themselves, and take responsibility for their learning and their behavior! Donna will help you discover how strengthened engagement leads to increased achievement and a student-centered classroom where you can maximize your instructional time and decrease your management challenges.

Guided Math: An Instructional Framework to Build Conceptual Understanding in All Students

A Two-Day Seminar for Teachers of Grades 1–5
Kristin Hilty

Kristin offers resources and strategies for your daily calendar, math journals, math warm-ups, and guided math lessons, that will help you manage your time with your students—all while hitting content requirements. Gain innovative, hands-on games and activities to use in your guided math centers that align to 21st century skills and standards. Get an up-close and personal look at what quality math instruction looks like through the lens and scope of simple and engaging daily activities and practices.

Standards-Based Assessment & Grading: Principles & Practicalities for Today’s Classroom

A Two-Day Seminar for Teachers of Grades 5–12
Rick Wormeli

Dramatically impact teaching and learning in your classroom, as you learn the “how’s” and “why’s” of assessing and grading diverse learners in all subjects in a standards-based world. In this two-day workshop, Rick offers an engaging, provocative, and practical look at standards/outcomes-based assessment and grading practices for the modern classroom, diverse students, changing politics, and evolving pedagogy. He shares how to accept evidence of mastery and measure student performance against the standards, and provides teachers with varied and formative styles of assessment easily adaptable to students’ readiness levels and reflective of real evidence that can be used in their journey toward achievement.

The Why & The How: Number Sense Strategies for Success

A Two-Day Seminar for Teachers of Grades 1–5
Jana Hazekamp

Standards across the country are asking students to learn multiple strategies for computation, and to discover that there is more than one way to arrive at the correct answer. Teaching these new strategies can be challenging, but the key is a strong foundation in the Concrete-Pictorial-Abstract approach to computation and number sense.

Teach It: Tried & True, Fun & New with Kim & Crew!

A Two-Day Event for Teachers of Kindergarten
Kim Adsit, Deedee Wills, and Adam Peterson

Gain time-tested secrets and discover fun, new twists alongside Kim Adsit and the kindred kindergarten spirits who make up her crew—Deedee Wills and Adam Peterson. This amazing trio will empower you to take on the rest of the school year (and beyond) with a unique blend of timeless strategies and fresh approaches created specifically for your kinders. Take part in two-days of hands-on and engaging sessions covering early literacy, play-based learning, classroom environment, higher-order thinking, motivation and engagement, fun and inspiration.

Guided Math: Get Up & Go!

A One-Day Seminar for Teachers of Grades K–3
Reagan Tunstall

This research-based, best practices approach takes the foundation of guided math and adds in a teacher-to-teacher perspective. Reagan leads teachers in understanding a real-world application and management of guided math in their classrooms. Implement guided math with ease and confidence after exploring productive methods of grouping, differentiating, planning, and organizing for your guided math classroom!

Grade- and Topic-Specific Conferences

Our grade- and topic-specific, multi-day conferences feature a panel of expert educators, presenting on topics that are the most relevant and timely to the learning going on in today’s classroom. Relatable keynote presentations and collaborative break-out sessions, filled with new theories, methods, and techniques, help learning spring to life in your classrooms. Grade-specific conferences feature sessions for all content areas, including literacy, math, and science, and provide innovative behavior, management, and centers strategies. Topic-specific conferences feature sessions tailored to focused content areas.

SDE’s 2018 National Conference

A Five-Day Conference for Teachers of Grades PreK–12
July 9–13, 2018 | Las Vegas, NV

SDE.com/National

Immerse yourself in four days of learning (plus a day of pre-conference events) with a comprehensive session line-up dedicated to reaching all students. Gain purposeful approaches to move from theory into practice with new ideas, fresh concepts, and proven strategies to make learning accessible and engaging for your students. Dig deeply into the science of learning and acquire research-based approaches to help bolster student achievement.

Our six grade- and topic-specific strands include:

- I Teach PreK!
- I Teach K!
- I Teach 1st!
- I Teach 2nd!
- Differentiated Instruction (K–12)
- Teaching Math (K–5)

Online PD Courses

Whether you're looking to improve your professional teaching skills or explore a new interest, SDE offers an extraordinary format for learning—anywhere you have Internet access. Our online courses offer a straight-forward method where teachers can sharpen skills, gain essential tools, and earn CEUs and/or graduate credits for applicable courses—right from their desktop. Courses run for six weeks, start monthly, are self-paced, and are led by veteran educators, many of whom are nationally-known authors and presenters. A flat rate of \$139 per course eliminates the need for in-service days or substitute teachers. Plus, group discounts are available. The variety of courses cover current teaching topics and feature the latest research-based teaching methods.

- **Common Core Standards for English Language Arts K–5** 
- **Content Literacy: Gr. 6–12**
- **Differentiated K-12 Assessments**
- **The Differentiated Instruction and Response to Intervention Connection**
- **Creating the Inclusive Classroom: Strategies for Success**
- **Creating Classroom Centers: Boost Independent Learning**
- **Guided Reading Strategies for the Differentiated Classroom**
- **Guided Reading & Writing Strategies for Maximum Student Achievement**

- **Response to Intervention: Reading Strategies That Work**
- **Singapore Math: Number Sense and Computational Strategies**
- **Singapore Math Strategies: Model Drawing for Gr. 1–6**
- **Singapore Math Strategies: Advanced Model Drawing for Gr. 6–9**
- **Teaching Students with Autism: Strategies for Success**
- **Teaching Students with ADHD**
- **Teaching Smarter with SMART Boards™**

- ✓ Learn interactively from an accessible instructor
- ✓ Complete each course in only six weeks
- ✓ Earn credit to advance your career
- ✓ Spend less! Tuition is only \$139
- ✓ Save on tuition by registering a group of 10 or more

JOYFUL LEARNING STARTS WITH YOU

SDE.COM/NATIONAL

**Come to re-group, re-strategize, and rejuvenate.
Leave ready to foster joyful learning.**

For more than 15 years, SDE has hosted 100,000 PreK-12 educators at our National Conferences. Join this network of dedicated educators by registering for one of our six grade- and topic-focused strands offering more than 500 sessions designed to improve your impact in the classroom.

GET THE FULL CONFERENCE EXPERIENCE

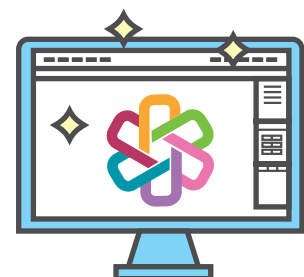

- 500+ sessions by 100+ experts
- Opening & closing keynote events
- Special evening events
- Exhibit hall & event bookstore
- 12 pre-conference events
- Networking with 5000+ educators & experts
- 12-month online access to every session handout
- Event mobile app with personalized agenda, networking & more
- 5-star facility in heart of Las Vegas

BRING HOME THE BENEFITS

- Immerse yourself in five days of learning with a comprehensive session line-up dedicated to reaching all students.
- Identify opportunities for creating student-centered environments of equity, access, and flexible thinking.
- Gain purposeful approaches to move from theory into practice with new ideas, fresh concepts, and proven strategies to make learning accessible and engaging for your students.
- Dig deeply into the science of learning and acquire research-based approaches to help bolster student achievement.
- Discover how social, emotional, and cognitive development impact learning experiences.

School-Based Professional Development

Extend your professional learning by bringing SDE to your school or district.

➔ Get more information online at SDE.com/Onsite-PD

Bring SDE to Your School

for Customized & Sustained Professional Development

To plan this professional development engagement in your school/district, contact SDE's Educational Partnerships team.

Customized Training

SDE professional development can be tailored to grade bands and be delivered in flexible increments for rich and meaningful learning.

Job-Embedded Coaching

SDE's job-embedded coaching supports teachers as they study their instructional practice, try a modified approach, and reflect on how the new approach impacted student learning.

With job-embedded coaching, you'll see:

- Changes in instructional practice
- Impact on student achievement
- Substantial impact on teachers' perspectives on teaching and learning
